

Responsive, Professional Support to Keep Your Medical Equipment at its Best

We fully appreciate the financial and operational constraints you face. We also understand that optimizing costs must go hand in hand with ensuring a high level of support.

By choosing Christie Innomed to manage your different Biomedical modalities, you will benefit from improved service-level consistency and greater cost-efficiencies.

As the largest independent medical equipment distributor and service provider in the country, we bring a level of flexibility and contract customization to suit our customer's needs.

Christie Innomed has provided confidence and continuity to both hospitals and clinics across Canada for 70 years.

As the largest independent medical equipment distributor and service provider in the country, we bring a level of **flexibility** and **contract customization** to each account that other vendors cannot.

You focus on patient care. We handle the rest.

Leave your Biomedical Equipment Support needs with a single trusted service provider.
